

Week Three Online Teaching (Choice board)

Standards for the week: MGSE2.OA.3, MGSE2.OA.4.

A *GRADED ASSIGNMENT* Write numbers 1-20 on a piece of paper. Write down next to each number if the number is even or odd.	B Grab a group of items (such as toy cars). Make several groups out of them and determine if the group you created is even or odd. Explain how you knew they were even and odd.	C Roll two dice (or use a deck of cards and pull two cards out) to make a double-digit number. Write down on a piece of paper what number you rolled and if the number is even or odd. Explain why they are even or odd. Do this 15 times.
D Divide a paper into six squares. In the first square draw 5 circles. In the second square draw 16 circles. In the third square draw 11 circles. In the fourth square draw 20 circles. In the fifth square draw 6 circles. In the sixth square draw 13 circles. After drawing the circles write down if the number of circles you have are even or odd.	E Create an array with 3 rows and 4 columns with toys.	F On a piece of paper draw (circles) 4 rows and 5 columns to create an array.
G Watch one of the videos below about arrays. Write down what you learned about arrays.	H Make repeated addition sentence to the following arrays 1. 3 rows and 4 columns 2. 4 rows and 2 columns 3. 2 rows and 3 columns 4. 5 rows and 5 columns	I Complete the PowerPoint "Arrays" on a piece of paper.
